Neo-Platonism – The hidden root of Omega of Deadly Heresies

Philo's attempt to unite Neo Platonist concepts with Jewish concepts were cautiously looked upon by the Jews, although both were advocates, for a belief, in the concept of **one God**.

While Philo believed in the Logos being an Astral intermediary, Jewish theology viewed the Messiah, in terms of what **Paul** stated in **Romans 1:3**

“Son of God according to the flesh” or seed of David.”
The lineage of David.

So, both basically were wrong in the sense that Philo’s Neo Platonism states that the Word = **energy** was **not created**,

but was **birthed** at some point in time as a clone,
and in turn created the rest of the material Universe.

Meaning that “it” contributed to Galaxies, planets and stars.

Philo viewed this in **Pantheistic** form, as **two forms of energy, 1)** as in being a Void or empty space without stars, planets, galaxies etc.

Meaning that this invisible indescribable **energetic principle** gave birth, and to another,

2) by way of a “**thought or emanation**” as if, by separating a clone from itself and that this clone in reality **wasn’t** created since it already existed within the **Void** Universe, energetic principle.

This is in fact the root of the

Eternal Son Doctrine

which

**is the hidden
Omega of deadly heresy,**

but was personalized by the Church Fathers
as the **Father, the Eternal Son and the Holy Spirit.** = Trinity

What Philo tried to explain, allegorically a myth to the Jews, was a way that
they could understand these **two energetic principles** = **Pantheism.**

Yet **historic Judaism** believed from **Genesis 1:26**
that God and man, looked alike.

Whereas **Philo** and **Neo Platonism** were
dealing with "**energetic principles**"

and not an
Anthropomorphic
God Messiah = God looking like man.

Man made in the image of Gd.

Romans 1:3 remains correct.
